

## **Are you struggling with your homeopathic practice and want to find a better way?**

*It's really tough being a homeopath in the United States...first you have to find the perfect remedy...then you have to manage the case...and you have to keep attracting clients to earn a living...*

### **Now Only 12 Homeopaths\* Will Have The Opportunity For Twelve Months Of Training Guaranteed To Achieve 80% Success In Your Cases...**

If You Qualify, myself and Inner Health's Excellent Staff Will Personally Work With You To Take Cases To Find The Vital Expression, To Get Your Clients To Reveal The Qualities Of The Remedy They Need, And To Give You The Confidence And Skill Necessary To Really Grow Your Homeopathic Practice Beyond Your Wildest Dreams—**But There is Limited Time To Apply!**

January 2<sup>nd</sup>, 2008

Dear Homeopathic Colleague,

The homeopaths who use this method in their practice are experiencing a renewed excitement and success that is outstanding. You can be one of them...

*"The last six months in the Inner Health Program has been one of the most rapid growth periods in my homeopathic career. I came to understand that the Sensation Method casetaking can be learned and even mastered in a supportive environment with the right tools. Casetaking takes us on a spiritual journey between our clients and ourselves, and this journey can make all the difference in the world. "*

**Gary Christiansen**

Homeopath, Westboro, MA

In the past four years since I returned from India, where I learned and applied the methods developed by the Bombay Group led by Dr. Rajan Sankaran. I have taught many homeopaths and seen them gain the confidence and solve many cases that were impossible before learning this new method...

*"Melissa Burch is a direct and dynamic instructor who taught us how to achieve better results in our practice. She seamlessly introduced the new method while taking into account other developments in homeopathy - particularly the latest insights from the field of quantum physics that explain how homeopathy ultimately improves not only physical health but boosts levels of creativity, energy and overall well-being.*

*Her lecture was thoroughly prepared and solidly based in logical thinking as well as on homeopathic philosophy. The cases she showed were built up, with perfect fluency, from the client's own energetic field. They led without hesitation to the roots of the disturbance and brought to the surface the language of the source. Every case she presented will be remembered not only for its contributions to *Materia Medica* but also to techniques of case-taking and understanding of the client."*

**Christel Lombaerts**

Director of Center for Classical Homeopathy in Belgium

We don't want to do the typical "workshop" where you get inspired and excited—but then you go back to your practice and you don't get the results you saw in those workshop video cases—actually you are more confused then before. The more you are supported the BETTER you will be!

Inner Health and I really want to do something really special...something really different—something that's a *quantum leap* ahead of any other learning opportunities in homeopathy right now.

Nothing like this has ever been offered. It's beyond workshops, courses, books, schools, computer programs, websites. Unlike these other ways to learn, there is no way to be sure you GET IT! Until now...

### **12 Select Homeopaths Will Work With Inner Health's Expertly Trained Homeopaths and Teachers Step by Step To Apply The Sensation Method With Their Own Clients And Triumph!**

We will take up to 12 homeopaths under Inner Health's wing and teach them all they need to know to have the same results I see in my practice everyday.

### **This Definitely Isn't For Everyone!**

The program is only open to 12 people, this is the MAXIMUM that we can work with because we want to make sure you can DO IT, not just intellectually understand the process—but receive one-on-one attention. I'm being very selective about this—and if there aren't 12 people who meet Inner Health's requirements, then we'll just take those who do—and then **Inner Health Apprenticeship Instructor Jenny Hwozdek** will have more time to give to those who are committed and ready to improve their practices beyond what was remotely possible before.

The requirements are:

- You must be interested in Dr. Rajan Sankaran's ideas...
- You must know what a rubric, *Materia Medica* and a proving are...
- You must be open to learning a new and better way of casetaking and analysis and be open to accepting of constructive advice...

- You must be ready to experience a leap in your own awareness so you can perceive it in your clients...
- You want a community of homeopaths to work with...
- You are willing to share openly your successes, challenges and concerns...

For now, just imagine FINALLY what it would be like for your clients to deeply connect to a substance and tell you what you need to know to find the remedy...give you more than key notes, or a mishmash of symptoms, or worse nothing much to work with...

What needs to be cured is handed to you through the casetaking. Strange, rare and peculiar symptoms now can have a new level of understanding. Matching the state is OBVIOUS and finding the remedy is much clearer then ever before.

Here is how:

- Imagine taking a case and your client tells you his issue is survival—it is a me versus you—and from his chief complaint he connects his need to pounce on his co-workers, his need for speed, and how he shreds the other guy...leading you to think about an animal remedy that must have these qualities...and then he describes the jungle and the waiting, not making a sound, until NOW—when he chases at breakneck swiftness and gestures as if he has claws going into the back of a gazelle. Now you know you have to give a remedy from the Big Cat family.
- Imagine when you are taking the case you know where you are, what information you need to complete the case—no more spending hours figuring out the case after the client leaves. You know you *got it!*
- Imagine the confidence you will have when you select a remedy at this level where every part of the case fits into the remedy...no more doubt: the key notes are confirmed, the delusions are in the *Materia Medica* of the remedy, the modalities and generalities are there too, and you have the exact Source Language of the substance told to you directly by the client.
- Imagine your client returns for a follow up and tells you how much better he is doing, explains synchronicities that have occurred since taking the remedy, the aggravation immediately after leaving your office where he took the remedy, the old symptoms coming and going rapidly, and now not only is his chief complaint no longer bothering him but he feels so much calmer in himself, almost Zen-like...

## **How Long Are You Going To Wait Before You Learn How To Do This For Yourself?**

After I graduated from the New York School of Homeopathy I was excited to finally be a homeopath, but I was not getting the results I dreamed of in my practice... Yes, sure people were getting better, oh I could study some more, go to more workshops, see more clients—but when I whined to my colleagues some with decades of experience they were also frustrated with their success rates... some clients always got better, but what about all the others?

## **What Would It Take To Know You Can Really Help Your Clients 80 to 90% Of The Time?**

OK, there is the casetaking and analysis but that is not all... You must have excellent case management skills... When to repeat? How often? What potency? What protocol to use when you are in this situation? What do you do when that happens...? Where can I find out more information about this remedy, this kingdom, this family...?

AND, you can't do this alone... You need a place to come with your problems... You need clinical support from experienced homeopaths, direction to find information on less known remedies, latest tips on how to avoid common pitfalls, real help—not just oh I saw a great case yesterday, or this case is really bothering me...

We will go into what is the problem so that you can WORK on it and GET THE RESULTS for your client in the end... because when your client says I am feeling really great after that remedy I took, your day will fly by, you will have so much energy to care for others, referrals will pour in, and you will feel on top of the world...

## **Now You Will Be Inner Health's Apprentice... We'll Show You The Ropes And More...**

Together, we will make sure you are taking as many cases as possible to the Source level, and absolutely confirming the kingdom from the Sensation Level...

Now I have a very strong incentive to make sure you are the best homeopath in your area, because after one year of working with this method, I will offer you the opportunity to be a Certified Inner Health Homeopath, subscribe to the Inner Health System and get all the marketing and business opportunities to make a great living as a homeopath!

**You will Acquire All The Skills, Knowledge, and Experience You Need To Be The Best Homeopath So You Can Truly Serve Your clients**

Here are some testimonials from former students and other homeopaths who have experienced my work. Many went on to have the confidence and become excellent homeopaths using this method.

*"Melissa Burch is a true scholar of homeopathy, who is an excellent teacher of both the profundity and intricacies of the knowledge of Dr. Rajan Sankaran. She is a true clinician who is so successful at finding the remedy that can help put a person on the path of a healing transformation. Melissa will also feel like a true friend for those who seek to study or heal with her. "*

**Tim Stryker, M.D.**

Former Chief of Medicine at Boston Regional Medical Center  
and New England Memorial Hospital

*"Melissa is a dynamic teacher who has a deep understanding of her philosophy, and an energetic way of conveying this to her class. Even when you think you understand homeopathy through and through, she has a way of clarifying material so that it becomes transparent; then you understand it at a different level. Her cases show a grasp of Source Language, and therefore remedy, that puts them amongst the most interesting cases I have seen in 23 years. I feel that Melissa is aptly prescribing new remedies fearlessly, and is motivating a wide audience through her teaching. A workshop with her is invigorating, benefiting both clients and practice."*

**Jenni Tree**

English Homeopath  
Editor of Vermeulen's books, "Prisma" and "Monera"

*"I quickly learned that Melissa's understanding of this Method of casetaking was very deep. She is able to arrive at a profound, energetic understanding of her clients and her ability and willingness to share her method and her understanding is practiced in the same way that she does everything in her life-with passion, generosity and with grace."*

**The fastest growing group of homeopaths are the ones who are using this method!**

These homeopaths know the value of this method and how to apply it in their practice to achieve the results I am claiming...

**The Five True Reasons Why I have Organized this Program to Show You, Step-By-Step, Everything You Need To Know To DO IT!**

Why I'm doing this?

1. I want to see a community of homeopaths grow in the United States, who can exchange valuable clinical *Materia Medica* and protocols.

2. I get calls and emails everyday asking if I know a homeopath in some part of the US? I always feel reluctant to recommend someone I don't know.
3. In order for homeopathy to grow and become a recognizable and obvious choice for health care we need our success to speak for itself through "cured" cases.
4. The only way to improve what I do is to have colleagues better than me with busy practices and high levels of success in their practices.
5. I know this method works to make a difference on a spiritual level so that evolutionary changes are possible when you find the Similimum.

By Melissa Burch, CCH and Susana Aikin, CCH

This four-part manual with over 250 pages provides an in-depth course for students to have a comprehensive understanding of the methods used to find the simillimum and treat clients homeopathically based on Dr. Rajan Sankaran's theories, research, teaching and practice.

The new method developed by the Bombay Group led by Dr. Rajan Sankaran improves your self confidence because there are clear indications of how to follow the case and to narrow the remedy selections.

#### **Manual is Easy To Understand, Logical, Provides Many Examples, Helps You Understand The Principles And Apply Them...**

The manual explains where you are when taking a case, and how to use a mapping system when using this approach:

- Begin with the chief complaint
- Discover the (where the mind and body connect)
- Follow the various levels (going beyond the level of Delusion to the levels of Sensation and Energy where the qualities of the substance are described by the client)
- Differentiate the four kingdoms—Mineral, Plant, Animal and Imponderable

- Apply the tools of miasms
- Make an accurate remedy selection based on Source and Sensation language, confirmed through traditional methods of the repertory and *Materia Medica* when available.

The manual includes Dr. Rajan Sankaran's paper cases edited for easy reading and with comments specific to the topic of the unit. Each unit has homework for the student, which can be emailed to Melissa Burch, CCH for review.

All the information in the manual is founded on the principles of Classical Homeopathy and the work of Samuel Hahnemann.

Your clients are always seeking for you to heal them. Now you can have a way to improve your practice that will give you more self confidence, better success and happier clients.

#### **Supervision for THREE of your paper cases...**

It is a MUST that you actually put into practice what you have learned. I really want to catch mistakes before they become bad habits—or worse you figure it's not working and so you never get to the level of proficiency where you experience the joy of the exchange between you and your client when they make a leap into the universal consciousness and speak the Source Language of the remedy they need.

Jenny Hwozdek will spend as much time as needed to go over your cases on the phone so that all the elements are uncovered in terms of the way you took the case, how you can improve, recognize what is the information that is usable to finding the remedy, and most importantly encouraging you to appreciate how much you have learned so far...

You need guidance and mentoring so you can know your strengths and understand your weaknesses, then your confidence and ability soars... Avoid the pitfalls, navigate the levels in your case so you know when you are there, and understand if you didn't get there...

*“Jenny is a power of example in the Vital Sensation Technique. She offers detailed guidance as she patiently supports each step of the way in the case-taking process. I am grateful to have had the experience to share Jenny's wisdom, and her in depth knowledge of Materia Medica. Her dedication to this work is a wonderful contribution to our ever-expanding field of homeopathy.”*

*“Jenny recently supervised a confusing case for me, and she was truly a guiding light through the confusion. Patient, thoughtful and clear with her guidance, she set me on track and ignited quite a few new understandings in my thought process, which will aid me in future cases. I look forward to working with her again, and again...”*

Then you can view the analysis and can feel part of a "Happening Group" like the Bloomsburg Group or the Algonquin Round Table. The intimacy of the filming brings you into a special space where you meet colleagues discussing and analyzing the case using the most up to date information available.

Lastly, there is a downloadable conference call discussion of the entire process between Melissa Burch, CCH, RsHom(NA), Inner Health Coaches Dr. Tim Stryker and Gary Christiansen and homeopathic students deconstructing the entire process to help elucidate the techniques and application of the Sensation Method.
